KONE Spares
RENUIT™ Program

KONE Spares Escalator RENUIT Program

KONE Spares is now able to offer RENUIT packages targeted to the older Montgomery-KONE escalators operating in your building.

Through the RENUIT program we will work with you to provide upgrade and refurbishment packages that facilitate your budget while renewing, enhancing and extending the life of your current escalator. RENUIT packages cover both visual upgrades, as well as mechanical improvements to your older escalator equipment.

The RENUIT program supports various safety, visual and mechanical equipment upgrades while selectively replacing vital components on a programmed schedule tailored to your existing and future needs.

Visual/Aesthetic Options

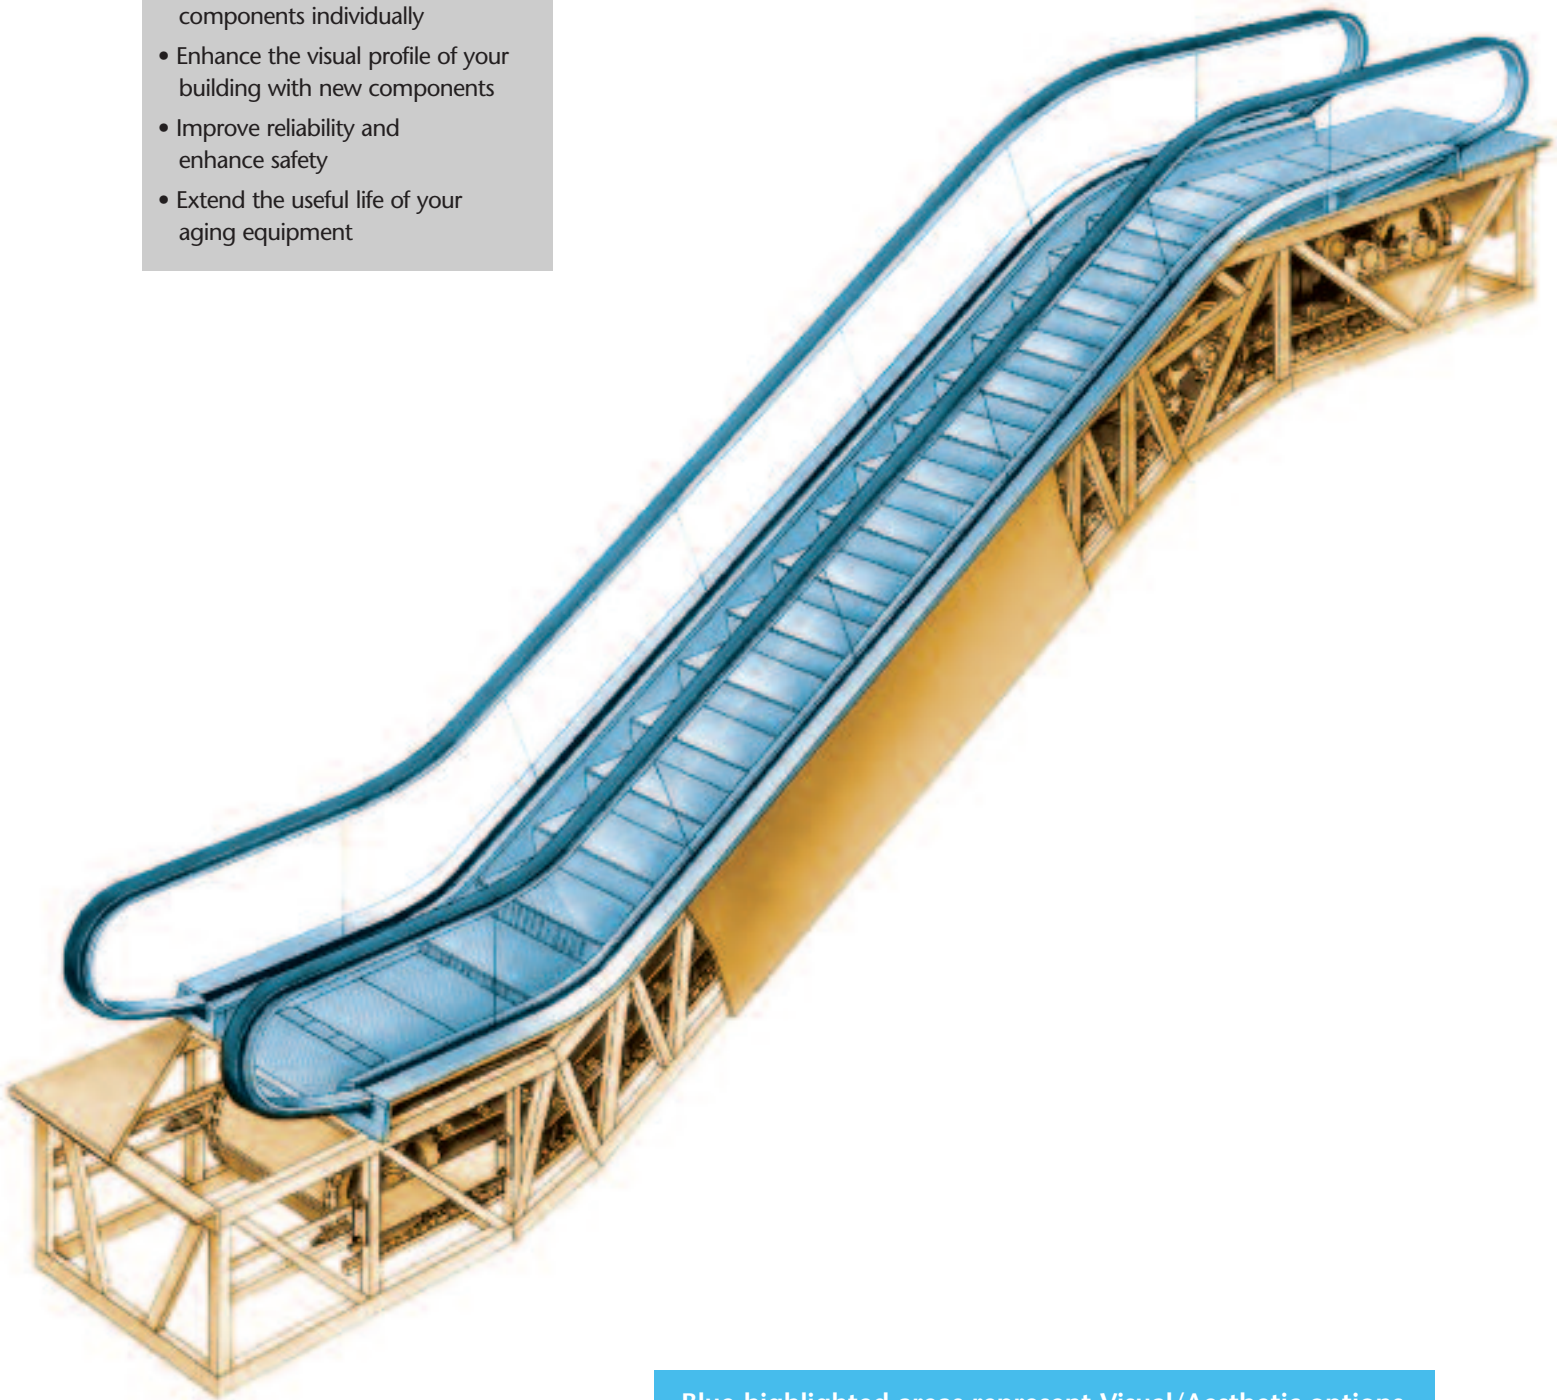

Steps	Full cast step upgrade
Combplate Assembly	Combplate assembly with comb impact
Access Covers	Cast or extruded aluminum, or filled by others

Electrification	

Key Benefits

- Replace old components through packaged modular repair options
- Save money by purchasing packages instead of buying components individually
- Enhance the visual profile of your building with new components
- Improve reliability and enhance safety
- Extend the useful life of your aging equipment

Blue highlighted areas represent Visual/Aesthetic options.

Orange highlighted areas represent Mechanical options.
